#### **DETAILED ACTION**

1. This communication is in response to the communication filed by applicant on December 15, 2008.
2. Claims 3, 9, 11, 14, 18, 30, 33, 38, 43, & 46 have been cancelled.
3. Claims 1-2, 4-8, 10, 12-13, 15-17, 19-29, 31-32, 34-37, 39-42, 44-45, & 47 are allowed (renumbered 1-37).

#### **REASONS FOR ALLOWANCE**

4. The following is an examiner's statement of reasons for allowance:

The prior art made of record does not teach or fairly suggest the combination of elements recited in independent claims 1, 19, 34, 40, 44, & 45. More specifically, the prior art of record does not specifically suggest the method and system of claims 1, 19, 34, & 45 which recites: associating, in a timing document that is separate from the content document, the first set of one or more elements with a second set of one or more elements in the timing document by referencing at least a portion of the first set of one or more elements to one or more elements in the second set of one or more elements; receiving an input to initiate an event affecting an element in the first set of one or more elements in the content document; providing a proxy element in the second set of elements in the timing document that is configured to reference application of the event; and rendering the multimedia objects based on the arranging of the second set of one or more elements.

Further, in association with claims 40 & 44 the prior art of record does not specifically teach or suggest computer readable media carrying data structures comprising: a timing document formatted in a textual markup language having a plurality of tagged elements; wherein the plurality of tagged elements of the timing document includes a proxy element configured to reference application of an event affecting an element in the tagged elements of the content document in response to receiving an input to initiate the event.

Dependent claims 2, 4-8, 10, 12-13, 15-17, 20-29, 31-32, 35-37, 39, 41-42, & 47, being definite, further limiting, and fully enabled by the specification are also allowed. With respect to claim 45, "a multimedia device" is interpreted to be a hardware system consisting of a display unit and a multimedia player as consistent with the specification and FIG. 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
